a meeting yesterday evening (Thursday 7th) at Shendish Manor in Apsley, Hemel Hempstead, the local NHS up
ents on their progress. Unfortunately the “panel” of 40 people is not producing any real challenge and so the dir
altered. We will have to keep working at this – and we need your help please?

HVCCG rather glossed over the conclusion that they are ignoring their new traffic analysis which says most peo
efit from a centrally located hospital and will instead pump even more money into the poorly maintained Watford

PY THE FOLLOWING INTO YOUR EMAIL>

r West Herts Hospital Trust & Herts Valleys Clinical Commissioning Group evaluation panel

- . The 4 options presented by the CCG & Trust at the public meeting on the 7th of March and also replicated here <http://www.hertsvalleyshospital.co.uk/shendishmeeting/> **do NOT have my support**
- . I believe that the process used, and data available to the evaluation panel (who it was incorrectly indicated saw these options), had **not been given sufficient information (including financial) to enable them to make an informed decision**
- . I believe that the removal of a greenfield site from the shortlist is wrong and it **does not have my support**
- . 98.7% of 400 respondents to a survey conducted in January 2019 by [HertsValleysHospital.co.uk](http://www.hertsvalleyshospital.co.uk) agreed that "Hospital for West Herts should be located somewhere in the centre of the area it serves?" **I agree with that.**

refore urge the CCG, trust and evaluation panel to take the following action:

It the current process and fully re-consider options during the forthcoming purdah period

sure that the affordability, quality, patient experience, access, deliverability, value for money and strategic alignment are reflected to align with the views at the public meeting on the 7th of March and those previously that the plans do not have public support.

rs faithfully
