Subject: Urgent request for a Hospital in SW Herts that is fit for the purpose.
Categories: In log

Not sure who this panel really represents but from reading reports of the last few meetings I have gathered that you DO REPRESENT THE INHABITANTS OF SOUTH WEST HERTS.

All the money so far that has been poured into Watford Hospital to help prop the building up is a disgrace! The whole site is not fit for purpose, it is scruffy, some departments are not run efficiently, so I have observed that the moral of some staff is low and I do know of staff who have left Watford Hospital because they have found the working situation isn't good for the patients. At times patient needs appear to be a poor .

To get to the hospital from Kings Langley and surrounding areas is at best quite difficult, We in KL run a Good Neighbours scheme to help patients get to the hospital, that is Hemel, st. Albans and Watford. So none of the hospitals in this area is easy to get to!!

Your idea of spending even more money into Watford to prop it up even further is scandalous. This is our money paid from Taxes etc.,, not your money so please listen to the population of SW Herts . You do not represent the vast majority of the community. Also would urge the Community Panel to recognise that nobody anywhere has been able to independently scrutinise this proposed work!!!
