To whom it may concern

Unfortunately I was unable to attend the meeting on 7th March but I have been following the hospital discussions closely and I would like my opinion to be included for the stakeholder discussions. I don't see how any option other than option 4 makes any sense long term. Whilst I appreciate it doesn't fully resolve all issues immediately it is a step in the right direction. A new site allows for further development in time, as more money becomes available, ultimately resulting in a hospital that's fit for purpose. With the amount of new housing that is continuously being built in the area, the current hospital sites simply can't support the growing population.

Kind regards
